to have retaliation upon our heads. Well, then I guess everybody is going to have to retaliate against me because I'm going to do what I think is best for the state of Nebraska and for the people who live in this state. I think there are people who need scholarships to colleges and these PEAP funds go to students, and that's who I am worried about is students. So if...if I'm going to be retaliated against, I'm standing up here today saying I'm a big girl. I can take it. If we don't get it this year, I have one more year. I can maybe try next year. Thank you, Mr. President.

I've offered deals to people on this floor, and they never accept them. They want me to do it their way, and if I do it their way, then I have compromised in a way that's suitable to them. If I ask them to do it my way and they say, no, because they want to do it their way, then I'm unreasonable. Well, in the same way that Senator Suttle says that she is the hottest one in here, I'm probably the most unreasonable one in here because I am going to follow the path that I think I ought to. I don't know whether I can get 30 votes to take any one of these items out, but I need to have us discuss these things so that it's clear from the record what we are doing on each one and why. Senator Wickersham has made it clear what his interest
